EXPLANATORY NOTE

LOD means Limit of Detection
<LOQ means less than Limit of Quantification
Not Detected means the result is less than LOD
NA means Not Applicable
Sum compounds results are calculated from the results of each quantified compound as set by regulation
★ means the test is not in CNAS accreditation scope
☆ means cross-selling to Eurofins laboratories
◎ means subcontracted to non-Eurofins laboratories

Notes

1. Sample information and client information are provided and confirmed by the client. Eurofins is not responsible for verifying the accuracy, authenticity, relevance, appropriateness, and/or completeness of the information provided by the client.
2. The client is responsible for the representativeness, authenticity, and validity of the sample submitted for testing. The data and results in this report apply only to the sample(s) submitted.
3. The report shall be considered invalid if it is without the approver's signature, without the special inspection and testing seal, or if it has been altered.
4. The test data, results, and the report shall not be used for improper publicity.
5. This report shall not be reproduced partially (except for full reproduction) without the written approval of Eurofins.
6. The absence of measurement uncertainty on this report is because the method already includes measurement uncertainty or the client explicitly does not require it. When performing conformity assessment, unless otherwise stated, this report performs a direct comparison between the test results and the client-accepted limits without considering uncertainty.
7. This report is intended only for scientific research, teaching or internal quality control purposes and shall not be used as proof to the public.
